The Search

Miami Valley Career Technology Center (MVCTC) Board of Education is seeking a qualified educational leader for the position of superintendent due to the retirement of Dr. John Boggess after 15 years of service with the center. Dr. Boggess plans to work with his successor for a reasonable amount of time for a smooth transition period. Kendall A. Lee, school board services consultant with the Ohio School Boards Association, is assisting the board with the search.

About the District

MVCTC Mission Statement

We are dedicated to providing premier educational choices and advanced employment preparation for youth, adults and organizations of the Miami Valley.

MVCTC is positioned to influence economic development in five southwestern Ohio counties (Montgomery, Warren, Preble, Darke and Miami) by preparing students for the 21st century workforce. Students receive a challenging, career-focused education, as well as a rigorous academic foundation. This combination has resulted in an array of innovative applications and knowledge enabling MVCTC students to enter postsecondary education or the job market prepared for the global workforce.

MVCTC offers more than 50 career-technical programs for high school juniors and seniors, and lifelong learning opportunities for adult students in the Adult Education programs. Working with local business and industry partners, MVCTC is helping to attract and create jobs for the region's economic growth.

In addition to successful statistics and numerous awards, MVCTC boasts a learning culture that is positive and collaborative. Staff work in

partnership with students, parents, associate schools, communities, and business and industry throughout the Miami Valley to meet the school's mission.

The Miami Valley Career Technology Center is approved and accredited by the Ohio Department of Education and North Central Association of Colleges and Schools as a two-year public joint vocational school offering regular secondary preparatory in school and cooperative education programs.

MVCTC prepares students for transition from high school to college by providing opportunities to earn college credit and scholarship money toward a college education. MVCTC students may receive dual enrollment college credit from Miami University Middletown (math or science) or Wright State University (English or economics). Students also can complete an associate degree program in a tech-prep program that prepares them to begin a career or complete a bachelor's degree. An apprenticeship program allows students to work and earn a paycheck while developing skills and certifications employers want.

Students earn a Career Passport from MVCTC and graduate from their home school. Upon successful completion of a career program, students must have good grades, attendance and competencies in their

career program. Students will receive a portfolio displaying a profile of both professional and personal accomplishments.

About the Community

The Miami Valley Career Technology Center is in Clayton, Ohio, and serves 27 area high schools in five counties. Clayton is 11 miles northwest of Dayton in Montgomery County. The MVCTC district is located near the I-70/I-75 interchange, which has been transformed into one of the safest, most modern and most efficient interstate crossroads in the country. The James M. Cox Dayton International Airport can be reached within a few minutes.

Clayton has excellent schools, beautiful land, a convenient locale and a commitment to rural preservation. The Clayton area also offers several parks, playgrounds, trails and athletic fields. Wright State University, Wittenberg University, the University of Dayton and Sinclair Community College are among those offering nearby higher education opportunities.

Qualifications

The Miami Valley Career Technology Center Board of Education invites applicants who have educational leadership experience and a dedication to excellence in all areas of school operations. The new superintendent must be able to demonstrate that he or she has:

- Visionary leadership that demonstrates strategic planning in education through the growth of technology.
- A strong background in education with a clear focus on student achievement and the ability to craft curriculum for all students.
- Team-building leadership skills, and is able to develop, supervise and support teaching and administrative talent, inspiring high performance standards with accountability and finds satisfaction in the success of others.
- The ability to produce short- and long-range plans for ongoing improvement and the confidence to take risks that will challenge the status quo.
- Excellent speaking and listening skills, and an openness to ideas expressed by the board, staff, parents, students and community.
- A commitment to maintain high standards and increasing accountability for results at all levels by being active in the community.
- A demonstrated ability to work in partnership with the board of education by providing timely information and sound recommendations, and collaborate with external groups and families, governmental, business and nonprofit organizations.
- The ability to be an effective spokesperson for the district, who can articulate the needs and expectations of the school system to the funding bodies, students, parents and general public.
- An understanding of career-technical and adult education and is informed and knowledgeable about operations of a joint vocational school district, including finances.
- The ability to continue the positive vision of the high quality education that currently exist at Miami Valley Career Technology Center and can transfer vision into practical applications.
- A proven record of being a person of integrity who has high standards of honesty, ethics and personal conduct.
